# COMPANY OVERVIEW

## CALIFORNIA UMBRELLA

California Umbrella has been proud to serve you and your shade needs since 1946. The world has changed so much in that time, but our commitment to excellence has only deepened. To meet the demands of the changing market, we have several devoted factories overseas with well over 1 million square feet of production space, all to serve your manufacturing needs. The vast array of options for OEMs, customization, and developed products that our capabilities allow for, can fulfill almost every need you may have for a shade product. Our experience in sourcing materials and fabrics is second to none, so we can provide you with more options, and greater capacity, to make even the most demanding projects seem simple.

In addition to our manufacturing support, we operate a spacious seventy thousand square foot domestic warehouse and assembly center built to handle service and logistics for all your outbound orders, including smaller runs. Our main production goal is to serve you when you need it, so our team is always ready to discuss a project or details of your product and business goals. Our domestic warehouse program is all encompassing, offering you flexibility to plan and create. Whether the project is for just 1 Umbrella in a backyard bistro table, 200 umbrellas to a magnificent resort, or 20,000 umbrellas for a multi-national retailer, with California Umbrella, when it comes to shade, you can

*Relax, you're covered...*

# COMMERCIAL COLLECTION

The California Umbrella for Commercial Collection is our proud offering of Shade products designed to serve the contract industry. Simple, Traditional, and with the strength to withstand the rigors of heavy usage, that is the hallmark of every item in this collection. When you design the perfect outdoor space, these products will make the finishing touches the most gratifying.

Relentless pursuit of performance and value in our products has yielded a wonderful set of results for anyone looking to achieve the classic wood market umbrella look. Our Wood Market Umbrella Series' has been upgraded to deluxe fiberglass hardwood! Beautiful finishing, dramatic flourishes, and outstanding performance are just the beginning when you select an umbrella from this collection. We are calling it our Sierra series, and you will love how beautiful and functional it is.

Fiberglass is well represented in the California Umbrella for Commercial collection of shade products. You will find the most robust fiberglass components in the industry along with stainless steel hardware, high density resin, and zinc plated hubs, ensuring that the space created with these products can be enjoyed by as many users as possible. Made for your business or for your home, our Contract umbrellas provide a designed toughness which rejects the idea that commercial grade shade has to be over-priced in order to be built well.

Look ahead to find out what the ultimate commercial umbrella program really looks like...

### Driven to Perform

The Venture Series Commercial Patio Umbrella embodies California's legacy of ambition and innovation, designed for those who prioritize both performance and aesthetics. Engineered with double-wall thickness and resin hubs, this umbrella is crafted to meet the challenges of high-traffic commercial settings. It's more than shade—it's a statement of reliability and strength.

The larger 11ft size features a pulley-lift system and reinforced rib joints, the Venture Series stands firm against wind and weather, ensuring stability when it's needed most. Eight heavy-duty fiberglass ribs and stainless-steel hardware combine to deliver both function and style, while the sleek aluminum ribs and sturdy housing enhance its modern design.

For businesses driven by purpose, the Venture Series is a reliable, stylish solution. Where value and performance intersect, this umbrella rises to the occasion.

## SERIES

Timeless Elegance, Iconic Design

The Pagoda Series is more than just a source of shade; it's the design that defined our brand. Inspired by the graceful lines of classic architecture, this series serves as a sophisticated statement piece for any setting. Whether you are looking for a high-impact 12 or 24-panel configuration or choosing between our Patio and Market styles, the Pagoda Series offers a versatile, eye-catching aesthetic that bridges the gap between heritage and modern performance.

While built to commercial-grade standards for high-traffic venues like resorts and restaurants, its refined silhouette makes it equally at home in a private residential backyard. Crafted with premium, lightweight materials, the Pagoda Series is designed to remain resilient in both sunny and breezy conditions.

Whether you're creating a vintage-inspired sanctuary at home or outfitting a busy commercial patio, the Pagoda Series blends iconic style with everyday durability to transform any outdoor space.

# RESIDENTIAL COLLECTION

Our collection, California Umbrella for Home, is a celebration of the outdoor room. Designed for convenience, value, and performance, these shade products bring the full weight of our experience to your table. Here are a few highlights to look for when you think about bringing home the shade...

Being a California company, born and bred, we have our share of long summer days. California Umbrella pioneered and developed the original and revolutionary collar tilt feature to tilt your umbrella to any degree you wish while enjoying the afternoon and evening outside. We still boast the widest tilt degree in the market, allowing you to stay outside longer with your family and friends.

From the sunny coastline to the inland mountains, deserts, and valleys, California offers up some of the most majestic geography in the world. But as any native Californian will tell you, all this natural beauty gives way to the greatest challenge to the longevity of a shade product: wind. At California Umbrella, our experience with the windy Santa Anas gave way to another industry-leading innovation in our fiberglass products. We are proud to offer the commercial toughness of fiberglass in our flagship umbrella series.

Designed to enrich your experience at home is our CALI series of cantilever umbrellas. Tilt, twist, turn, and multiply the design options for your space with the expansive versatility and strength of these huge and dynamic shade structures.

We'll see you outside...

### Refined Coastal Comfort

For those who appreciate the elegance of coastal living, the Coast Series Patio Umbrella is the ultimate blend of form and function. Inspired by the soft curves of the shoreline, its curved canopy and bay-like valance edges create a striking silhouette, adding a refined touch to any outdoor space. Crafted with a lightweight and durable aluminum frame, this umbrella is built to endure the challenges of seaside environments, providing shade that holds up in breezy, salty conditions.

The robust center mast anchors the umbrella, working in harmony with the flexible fiberglass ribs that bend with the breeze, allowing the canopy to move gracefully without sacrificing stability. The push open mechanism with latch stop ensures quick and effortless opening and closing, providing smooth operation every time you need shade.

# UMBRELLA BASES

The foundation of great shade begins with unwavering support. That's why every base in our California Umbrella collection is designed with purpose—to provide strength, security, and seamless style, wherever your shade may go.

From bustling patios to quiet backyards and breezy beaches, our bases are made to adapt to the landscape. Whether you need commercial-grade performance or a flexible home solution, you'll find thoughtful features like twist-lock mechanisms, built-in rubber feet, and smooth mobility systems integrated throughout the line.

In California, we know that wind, movement, and terrain all challenge stability. That's why we offer options like dual-lock systems for maximum grip, secure bolt anchoring, and all-in-one ground anchors designed to bite into sand with ease. And for those seeking convenience, our refillable bases deliver a versatile, lightweight alternative that you can customize with water or sand on the spot.

From steel to concrete to aluminum, with finishes that complement any outdoor palette, these bases carry more than just umbrellas—they carry the legacy of dependable design.

So wherever you set your shade, know that California Umbrella has you grounded.

# OUTDOOR CUSHIONS

Our newest venture into outdoor living brings the same care, craftsmanship, and California spirit that define our shade products—now in a full line of performance-driven cushions. Designed to enhance the spaces where we gather, relax, and recharge, this collection offers tailored comfort with smart, lasting construction.

We started with four essential forms—Chaise Lounge, Deep Seat, Dining Chair, and Seat Pad sets—all built around supportive foam cores and detailed with thoughtful design elements. From connected cushion panels to corner ties, and from plush garneted fiber fills to L-shaped zipper construction, every feature serves a purpose: to make comfort easy and long-lasting.

And because outdoor life demands resilience, all our cushions are available with Sunbrella® fabric—known for its fade resistance, durability, and rich, lasting color.

California is where we design, test, and live with our products, so we know what it takes to enjoy the outdoors fully. Whether it's a quiet morning on the patio or a sunset dinner with friends, our cushions are built to stay with you, season after season.

## PACIFICA / OLEFIN

### PACIFICA®

Pacifica fabrics are crafted using a unique blend of solution-dyed polyester fibers, offering vibrant colors, softness, and long-lasting durability at an exceptional value. Tested to meet the highest standards, these versatile and cost-effective textiles are designed to perform like premium fabrics in both residential and commercial settings.

#### Mold and Mildew Resistant

Pacifica fabrics provide reliable resistance to fading, moisture, and harsh weather, ensuring long-lasting performance outdoors.

#### UPF 98+ UV Protection

Offers strong built-in UV protection to shield against sun exposure, keeping colors vibrant over time.

#### Solution-dyed Polyester Fibers

Solution-dyed polyester fibers offer high fade resistance, though slightly less than Sunbrella's premium standards.

#### Moderate Airflow

Pacifica fabrics allow some air circulation, offering a modest degree of comfort in outdoor environments.

Choose from 20 premium fabric colors, with all covers processed and shipped from our California facility. Orders are typically dispatched within 5 business days, while supplies last.

# SOLSTICE

Solstice uses Olefin fabric designed for dependable performance and great value, featuring robust synthetic fibers that ensure reliable performance in various conditions. With the ability to be solution-dyed for extended color longevity, these versatile fabrics combine quality, vibrant design options, and cost-effectiveness, offering excellent value for years of enjoyment with minimal care.

### Mold and Mildew Resistant

Olefin fabrics resist fading and moisture, offering durability for outdoor use, though less robust than higher-end options.

### UPF 90+ UV Protection

Provides basic UV protection to help reduce sun exposure, maintaining color integrity under moderate use.

### Solution-dyed Olefin Fibers

Solution-dyed polypropylene fibers provide decent fade resistance, suitable for less demanding outdoor conditions.

### Limited Airflow

Olefin fabrics may allow for some airflow, their breathability is less pronounced compared to Sunbrella fabrics.

California Umbrella uses the finest Olefin to create 16 different color selections available for selected Umbrella models, wherever you see this logo, the umbrellas will ship out within 5 business days.
